Product user manual

-translation of the original instructions-

Dear user,

Thank you for choosing our product. We are developers and manufacturers of high-quality products in accordance with our customers' requirements. Our products still show excellent reliability under extreme conditions. The company itself is synonymous with excellent service quality. Our professional dealers provide services and support to resolve any doubts about our products. Thank you for your trust in our company. We wish you a pleasant user experience.

Attention

Carefully read all safety warnings and instructions. Failure to comply with the relevant warnings and instructions may result in electric shock, fire, or other serious injuries.

Keep the warnings and instructions for future reference.

Description of environmental protection

Comply with national laws and regulations regarding waste disposal. Electronic and electrical devices must not be treated as household waste. Equipment, accessories, and packaging must be recyclable.

It is forbidden to dispose of the machine with regular waste.

Carefully read all safety warnings and instructions for use. Failure to follow the warnings and instructions may cause accidents such as electric shocks, fires, and severe burns.

Do not use or expose the machine to rain

When using the scissors, do not bring your hands close to the cutting area to avoid injury.

When operating the extension, do not operate it in the direction of a person.

Description of product performance

This product is a battery-powered scissors with extension, with a usage range between 0 and 1.5 meters. It also improves pruning safety.

MODEL	Product specifications	Material	Dimensions retracted	Dimensions extended	Weight
GC 22-10	Lawn scissors with extension	Aluminum tube	1.0M	1.5M	0.72KG

Parts list

- 1.Extension
- 2.Scissors
- 3.Support tools
- 4.Instruction manual

Steps to assemble and remove the extension rod:

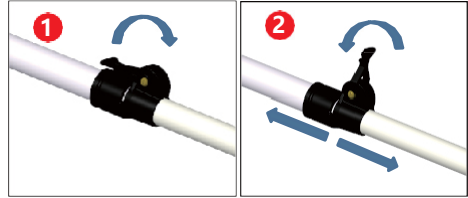

After assembly, turn on the power and follow the instructions. When installing or removing the scissors, make sure to disconnect the power first!

How to use the inner tube of the extension rod

When using the rod, do not rotate it continuously as the machine's lifespan will be reduced.

Safety considerations

Warning! Carefully read all instructions, failure to follow all instructions below may result in electric shock, fire, or other serious injuries!

Safety considerations

1. Keep the workplace clean and well-lit, chaotic and dark workspaces can cause accidents
2. Do not use the machine in explosive, flammable, or wet environments
3. Ensure that children and bystanders move away before operating the machine normally, to avoid accidental injuries due to distractions during operation

Electrical safety instructions

1. The battery socket of the power tool must match the end of the battery connection, the socket and plug must not be modified in any way
2. Do not expose power tools to rain or moisture; the entry of water or other liquids will increase the risk of electric shock and cause damage to electrical appliances
3. Do not misuse the cable, do not use the power cord to lift or pull the power tool or unplug it, keep the power tool away from heat sources, oil, sharp edges, or moving parts; do not use the charger when the power cord or plug is damaged; damaged or tangled wires increase the risk of electric shock

Personal safety instructions

1. Be alert, pay attention to operation, and stay awake when operating power tools; do not operate power tools when tired, under medication, or under the influence of alcohol; distraction during operation can cause serious personal injury
2. Use safety protection devices, always wear protective glasses, etc., under appropriate conditions, such as dust masks, non-slip safety shoes, safety helmets, hearing protection devices, etc., can reduce personal injuries
3. Remove all adjustment keys or wrenches before turning on the tool and any key or wrench left on the rotating part of the power tool will cause personal injury
4. During operation, keep hands away from the work area and do not they must not be extended on the bottom of the tool for any reason and always pay attention to the balance of the foot and body, so that power tools can be well controlled in case of accidents
5. Dress appropriately and do not wear loose clothing or accessories; keep hair, clothes, and sleeves away from moving parts, as loose clothing, accessories or long hair can get caught in moving parts

Abnormal situations and how to deal with them

1. When a non-cuttable object is accidentally inserted, immediately release the trigger
 2. When cutting too much grass and doing it too forcefully, it can cause the machine to jam, therefore it is necessary to manually remove the machine, do not use too much force. Force will damage the machine
 3. If the battery does not charge normally, first check if the charger is the one included with the product, then secondly the charging voltage must match the voltage on the label.
 4. In case of electrical or mechanical failure, immediately turn off the switch
 5. If not used according to the instructions for use, the battery may leak liquid, do not touch this liquid; If accidental contact occurs, wash immediately with water, if the liquid splashes into the eye, wash again with water
- The liquid expelled from the batteries can cause irritation or burns

After-sales service

If you have any questions during use, please contact us in time. We have professional staff able to answer your questions and problems and we allow qualified maintenance personnel to repair power tools with identical spare parts, in order to maintain the safety performance of the power tools.

Declaration

The company reserves the right to make technical improvements to the products described in this manual. Understand if there are any changes. In case of discrepancies between the graphic images and the texts and the actual objects contained, the latter shall apply.
